## VISÃO GERAL

### Tecnologias Envolvidas

## Descrição Geral

Aplicação Web voltada ao monitoramento de vacinas em câmaras refrigeração.

### Cadastro - Vacinas

```
CREATE
Send Request
POST {{ URL API }}/vacina/
Content-Type: application/json
    "nome": "Corona VAC",
    "tempMax": 15.0,
    "tempMin": 5.0,
    "margem": 20
```

```
UPDATE
Send Request
PUT {{ URL API }}/vacina/1/
Content-Type: application/json
    "nome": "sputnik V",
    "tempMax": 20.0,
    "tempMin": 0.0,
    "margem": 10
```

### Cadastro - Vacinas

```
LIST
Send Request
GET {{ URL API }}/vacina/
Content-Type: application/json
    RETRIEVE
Send Request
GET {{ URL API }}/vacina/1
Content-Type: application/json
```

```
# DELETE
Send Request
DELETE {{ URL_API }}/vacina/3/
Content-Type: application/json
{}
###
```

#### Cadastro - Lotes

```
CREATE
Send Request
POST {{ URL_API }}/lote/
Content-Type: application/json
    "qtd": 50,
    "vacina": {
        "id": 1
    "camara": {
        "id": 1
    "validade": "2018-01-07",
    "util": true
```

```
UPDATE
Send Request
PUT {{ URL API }}/lote/2/
Content-Type: application/json
    "qtd": 3,
    "vacina": {
        "id": 4
    "validade": "2018-01-07",
    "util": true,
    "camara": {
